Dear friend,

How do you measure the gift of time?

Cancer consumes individuals lives with stress, worry and anxiety, but together we can provide a break from cancer to patients and their loved ones by giving the gift of time. Giving the gift of time means giving the gift of love, laughter and the opportunity to make lasting memories. Join me in supporting For Pete's Sake Cancer Respite Foundation (FPS) on #GivingTuesday (12.03.19), a national day of giving.

FPS donors provide time for reconnection and renewal for adult cancer patients, their caregivers and their children through cancer respite experiences. Last year, FPS provided **85,500 hours** of memories, precious family time, reconnection, love, and laughter. This equates to **3,600 total days of healing**, anxiety and stress reduction, support, and engagement. Beyond the respite, the FPS community of staff and volunteers continues to provide emotional support and access to other resources, including the chance for families to take mini breaks at events

each month. Imagine lives disrupted by a devastating diagnosis, fused together again by the love and care of a generous community.

This year, FPS is celebrating 20 years of providing the gift of time! In the last year alone, they've received nearly a thousand inquiries into their program. The need to give the gift of respite is needed now more than ever. To commemorate this monumental stepping stone in their history, and to help support the longevity of their necessary program - they need our help!

[Please make a donation using this link](#), and help FPS reach their overall goal of raising \$75,000 through #GivingTuesday! This year, the first \$10,000 raised will be matched. Contribute early to double your impact and help provide cancer respite to twice as many families. The clock is ticking! Let's help this organization touch more lives than ever before in this 24-hour give-a-thon. **Together, we'll provide cancer patients the opportunity to create lasting memories. Together, we'll give the gift of time!**
